RE: Re-Inspection Fee

Due to the number of re-inspections conducted by this office, beginning January 1, 2002 a \$25.00 fee will be charged for all re-inspections. This fee will apply to all types of re-inspections including a requested inspection that is not ready when the inspector arrives.

Subject to inspector availability, the re-inspection will be conducted when requested and all fees must be paid before electric service will be released.

If the job is one that does not require the release of an electric meter the re-inspection fee must be paid before the inspection will be made. (Example: remodel, setback for storage building or pool.)

All re-inspection fees shall be paid at the City of Lebanon Building Inspection Office.
